

## **ISO 14001:2004 ENVIRONMENTAL MANAGEMENT SYSTEMS & IQA**

### **Introduction**

Company that are ISO 14001:1996-certified have up to 13 May 2006 to make the transition to the newly improved ISO 14001:2004, i.e. if they want continued recognition as having environment management to the standard .

This course is designed to provide an in-depth understanding on the principles of Environmental Management and the requirements of the ISO 14001. Participants will be made aware of Certification Bodies' perspective of what drives the revised Environmental Management System, the approach normally taken for upgrading the environmental management in the industry.

ISO 14001: 2004 EMS is applicable to any organization that wishes to:

- Implement, maintain and improve an environmental management system,
- Assure itself of its conformance with its stated environmental policy, and regulations
- Make a self-determination & self-declaration of conformance with the International Standard

### **Course Objectives**

- Fundamental concepts & principles of an EMS with the 2004 standards transition
- Plan & initiate development of an Environmental Management System to meet ISO 14001:2004 standards
- Certification requirements during development & implementation of the EMS.
